

4 March, Wednesday 2026				
Time	Pre-InSiGHT Workshops			
08:30 - 09:00	Registration			
09:00 - 12:00	<p><i>Laguna Ballroom</i></p> <p><b>Hereditary GI Cancers Masterclass</b></p> <p><i>Chair:</i> Manasa Karthikeyan, Singapore</p> <p><i>Faculty:</i> Heather Hampel, United States Megan Hitchins, United States Susan Clark, United Kingdom Sonia Kupfer, United States Francesc Balaguer, Spain</p>	<p><i>Albatross &amp; Birdie</i></p> <p><b>Endoscopy Workshop</b></p> <p><i>Chairs:</i> Tan Yu Bin, Singapore Andrew Latchford, United Kingdom</p> <p><i>Faculty:</i> Matthew Kalady, United States Evelien Dekker, Netherlands</p>	<p><i>Offsite</i></p> <p><b>Chinatown Walking Tour</b> 09:00 - 12:30 (Ticketed)</p>	<p><i>Laguna National Golf Resort Club</i></p> <p><b>Golf Game</b> 08:00 - 12:00 (Self-registration and payment via the link provided on Congress website)</p>
Time	Main Congress Day 1			
	<i>Laguna Ballroom</i>			
12:30 - 14:00	Congress Registration			
14:00 - 14:20	<p><b>Welcome Address</b> Joanne Ngeow, Singapore Gabriel Capellá, Spain</p>			
14:20 - 15:40	<p><b>Session 1: Population Genomics and Risk Stratification</b> <i>Chairs: Susan Clark, United Kingdom   Noah Helderma, Netherlands [Y-InSiGHT]</i></p>			
14:20 - 14:40	<p><b>Scaling Up Cancer Screening for Population Health</b> Kevin Monahan, United Kingdom</p>			
14:40 - 15:00	<p><b>Applying Polygenic Risk Scores to Tailor Colorectal Cancer Screening in Primary Care</b> Jon Emery, Singapore</p>			
15:00 - 15:40	<p><b>Abstract Presentations 1</b> <i>Chairs: Sunny Wong, Singapore   Amalia Nanciu, Germany [Y-InSiGHT]</i></p> <p><b>Improving Colorectal Cancer Risk Prediction in Latinos Using Polygenic Scores and Machine Learning</b> Luis G Carvajal Carmona, United States</p> <p><b>The Familial Cancer Experience in South Africa: A Model for Implementing Genomic Medicine in Developing Countries</b> Raj Ramesar, South Africa</p> <p><b>Lynch Syndrome Re-Defined Through a Universal Germline Genetic Testing Program</b> Heather Hampel, United States</p> <p><b>Improving Hereditary GI Cancer Referral Rates using Electronic Health Records</b> Andrea Tan Wan Ling, Singapore</p>			
15:40 - 16:10	Coffee/Tea Break			
16:10 - 17:30	<p><b>Session 2: Health System and Implementation Science</b> <i>Chairs: Sonia Kupfer, United States   Chiang Jianbang, Singapore</i></p>			
16:10 - 16:30	<p><b>Cascade Testing and Family Screening Strategies</b> Maria Katapodi, Switzerland</p>			
16:30 - 16:50	<p><b>EMR Based Carrier Management</b> Finlay Macrae, Australia</p>			

Disclaimer: The programme is accurate as of the time of publication (24 February 2026).  
It is subject to change at the discretion of the Organising Committee without prior notice.

11<sup>th</sup> Biennial Meeting of the  
International Society for  
Gastrointestinal Hereditary Tumours  
4 - 7 March 2026 | Dusit Thani Laguna Singapore

[www.insight2026.org](http://www.insight2026.org)

**4 March, Wednesday 2026**

	<p><b>Abstract Presentations 2</b> <i>Chairs: Toni Seppälä, Finland   Jeanette Yuen, Singapore</i></p> <p><b>Cost-effectiveness of Genetic Testing to Diagnose Lynch Syndrome in Singapore</b> Sara Tasnim, Singapore</p> <p><b>Decision Regret and Willingness to Pay for Cancer Genetic Testing: A Longitudinal Contingent Valuation Study</b> Agnes Wong, Singapore</p> <p><b>Clinical Outcomes and Healthcare Costs in Hereditary Diffuse Gastric Cancer: A European Multicenter Study</b> Carla Oliveira, Portugal</p> <p><b>Feasibility of Pap-derived cfDNA for early-detection of sporadic and Lynch-associated endometrial and ovarian cancers</b> Alicia Latham, United States</p>
16:50 - 17:30	
17:30 - 17:45	<p><b>Day 1 Adjourn</b></p>
18:00 - 19:30	<p><i>The Nest, Laguna</i></p> <p><b>Welcome Reception</b></p>
20:00 - 22:00	<p><b>Y-InSiGHT Padel Game</b> (Y-InSiGHT Members Only)</p>

Disclaimer: The programme is accurate as of the time of publication (24 February 2026).  
It is subject to change at the discretion of the Organising Committee without prior notice.

5 March, Thursday   Main Congress Day 2			
07:30 - 08:20	<p><i>Laguna Ballroom</i></p> <p><b>Young InSiGHT Breakfast Session</b></p> <p><i>Chairs:</i> Benjamin Zare, United Kingdom Amalia Nanciu, Germany Noah Helderma, Netherlands</p>	<p><i>Albatross &amp; Birdie</i></p> <p><b>ClinGen Vcep Breakout Session</b></p> <p><i>Chairs:</i> Marc Greenblatt, United States Sharon Plon, United States</p>	<p><i>Eagle Boardroom</i></p> <p><b>Genetic Counsellors' Roundtable</b></p> <p><i>Chairs:</i> Manasa Karthikeyan, Singapore Brandie Leach, United States Marie Met-Domestici, Switzerland</p>
<b>Time</b>	<i>Laguna Ballroom</i>		
08:30 - 10:10	<p><b>Session 3: Genetics and Molecular Insights in Hereditary Gastrointestinal Tumours</b> <i>Chairs: Jean Christophe Saurin, France   Gloria Chan, Singapore</i></p>		
08:30 - 08:50	<p><b>Tracing Cancer Evolution in Hereditary Gastrointestinal Tumours</b> Daniel Buchanan, Australia</p>		
08:50 - 09:10	<p><b>Novel Genetic Drivers in Familial Colorectal Cancer</b> Laura Valle, Spain</p>		
09:10 - 10:10	<p><b>Abstract Presentations 3</b> <i>Chairs: Gabriel Capellá, Spain   Grolmusz Vince Kornel, United States [Y-InSiGHT]</i></p> <p><b>Somatic CTNNB1 mutations as a positive predictor of Lynch syndrome</b> Aysel Ahadova, Germany</p> <p><b>Inflammasome-related gene variant predisposing to familial colorectal carcinoma</b> Taina T Nieminen, Finland</p> <p><b>Immune infiltration in Lynch syndrome colorectal cancer is linked to diagnostic context, not MMR gene defect</b> Noah Cornelis Helderma, Netherlands</p> <p><b>Peripheral immunophenotyping reveals cancer-related alterations in Lynch syndrome</b> István Kelemen, Hungary</p> <p><b>Remodeling of the Intestinal Immune Infiltrate and Integrin Signatures of Tissue- Resident CD8<sup>+</sup> T Cells in Lynch Syndrome</b> Jacob Nattermann, Germany</p> <p><b>Pre-empting Vaccine Barriers in Lynch Syndrome: Profiling Immune Evasion Across Precancerous Progression</b> Nicole Cianci, United Kingdom</p>		
10:10 - 10:40	<p><i>Coffee/Tea Break</i></p>	<p><i>Laguna Ballroom</i></p> <p><b>Meet-the-Expert Session:</b> <b>Diving deeper into the genome with Illumina Constellation Mapped Reads</b></p> <p>Simeen Malek, Singapore Alvin Ng, Singapore</p> 	
10:40 - 12:30	<p><b>Session 4: Genetics and Molecular Insights in Hereditary Gastrointestinal Tumours 2</b> <i>Chairs: Daniel Buchanan, Australia   Benjamin Zare, United Kingdom [Y-InSiGHT]</i></p>		
10:40 - 11:00	<p><b>Adenoma-Carcinoma Model: Time to Move On</b> Aysel Ahadova, Germany</p>		
11:00 - 11:20	<p><b>Germline Mosaicism in the Clinic: When to Suspect, How to Manage</b> Maartje Nielsen, Netherlands</p>		

Disclaimer: The programme is accurate as of the time of publication (24 February 2026).  
It is subject to change at the discretion of the Organising Committee without prior notice.

5 March, Thursday | Main Congress Day 2

11:20 - 12:30	<p align="center"><b>Abstract Presentations 4</b> <i>Chairs: Ingrid Winship, Australia   Hidewaki Nakagawa, Japan</i></p> <p align="center"><b>Evidence for MLH3 as a cause for colorectal polyposis – a multinational study</b> Olkinuora Alisa, Switzerland</p> <p align="center"><b>Molecular landscapes of colorectal polyps and cancers from serrated polyposis syndrome patients with germline RNF43 variants</b> Jihoon E. Joo, Australia</p> <p align="center"><b>Germline pathogenic variants in homologous recombination repair pathway genes and the presence of the homologous recombination deficiency mutational signature in early-onset colorectal cancer</b> Daniel Buchanan, Australia</p> <p align="center"><b>Towards prevention of replication repair deficient childhood cancers using neoantigen mRNA-LNP Vaccine</b> Sunam Mander, Canada</p> <p align="center"><b>Clinical, molecular, and functional insights into POLE and POLD1 proofreading deficiency</b> Laura Valle, Spain</p> <p align="center"><b>Mismatch repair deficiency in histologically normal appearing normal urothelium in Lynch syndrome carriers</b> Matthias Kloor, Germany</p> <p align="center"><b>Investigating somatic and rare germline mechanisms in patients with unexplained mismatch repair deficiency</b> Giovana Tardin Torrezan, Brazil</p>	
12:30 - 13:50	Lunch Break	Poster Judging Session A
13:50 - 15:40	<p align="center"><b>Session 5: Polyposis and Desmoid Management</b> <i>Chairs: Finlay Macrae, Australia   Claudia Wu, Hong Kong SAR</i></p>	
13:50 - 14:10	<p align="center"><b>Current Best Practices and Emerging Therapies in Desmoid Management</b> Susan Clark, United Kingdom</p>	
14:10 - 14:30	<p align="center"><b>Role of Small Bowel Intestinal Transplantation in Surgical Management of FAP</b> David Liska, United States</p>	
14:30 - 15:40	<p align="center"><b>Abstract Presentations 5</b> <i>Chairs: Marc Greenblatt, United States   Diantha Terlouw, Netherlands [Y-InSiGHT]</i></p> <p align="center"><b>Defining the Risk of Desmoid Disease Following Surgery in Familial Adenomatous Polyposis (FAP) Patients with a Low Risk Genotype</b> Andrew Latchford, United Kingdom</p> <p align="center"><b>Defining The Picture of Desmoid Disease in Children and Young Adults with Familial Adenomatous Polyposis</b> Benjamin Zare, United Kingdom</p> <p align="center"><b>Novel Endoscopic Classification for Duodenal Polyposis in Individuals with Familial Adenomatous Polyposis: the DRACO multi-center study</b> Marco Vitellaro, Italy</p> <p align="center"><b>Clinical syndromes linked to biallelic germline variants in MCM8 and MCM9</b> Noah Cornelis Helderma, Netherlands</p> <p align="center"><b>Outcomes following endoscopic versus transduodenal resection in FAP patients with duodenal adenomas: a meta-analysis</b> Divya L Deverakonda, United States</p> <p align="center"><b>Comparison of desmoid disease risk after prophylactic minimally invasive versus open restorative proctocolectomy in patients with FAP</b> Susan Clark, United Kingdom</p> <p align="center"><b>The role of genotoxic gut bacteria in serrated polyposis syndrome and unexplained adenomatous polyposis</b> Yen Lin Chu, Australia</p>	
15:40 - 16:10	Coffee/Tea Break	<p align="center"><i>Albatross &amp; Birdie</i></p> <p align="center"><b>Get to Know Journal of Gastroenterology and Hepatology (JGH) Session</b></p> <p align="center">Rakesh Aggarwal, Chair, Journal of Gastroenterology and Hepatology Foundation</p> <p align="right"><i>Laguna Ballroom</i></p> <p align="right"><b>Meet-the-Expert Session: AI in Precision Medicine on AWS</b></p> <p align="right">Charlie Lee, Singapore Mai Chan Lau, Singapore</p> 

Disclaimer: The programme is accurate as of the time of publication (24 February 2026). It is subject to change at the discretion of the Organising Committee without prior notice.

5 March, Thursday   Main Congress Day 2			
16:10 - 17:40	<p><b>Session 6: Polyposis Management and Pathology</b> Chairs: <i>Ian Frayling, United Kingdom   M Logaswari, Singapore</i></p>		
16:10 - 16:30	<p><b>Role of Local Excision and Organ-Preserving Strategies in Hereditary GI Cancer</b> Matthew Kalady, United States (<i>Society of Colorectal Surgeons Singapore nominated speaker</i>)</p>		
16:30 - 16:50	<p><b>Use of AI in Colorectal Cancer Pathology</b> Leow Wei Qiang, Singapore (<i>International Academy of Pathology (Singapore Division) nominated speaker</i>)</p>		
16:50 - 17:40	<p><b>Abstract Presentations 6</b> Chairs: <i>Andrew Latchford, United Kingdom   Ernest Eu, Singapore</i></p> <p><b>Using Oxford Nanopore Technologies long-read sequencing to resolve unexplained hereditary colorectal cancer and polyposis syndrome patients</b> Jihoon E. Joo, Australia</p> <p><b>Small bowel surveillance investigations, interventions and outcomes in a large UK Peutz-Jeghers syndrome cohort</b> Roshani Patel, United Kingdom</p> <p><b>Duodenal involvement in MUTYH-associated polyposis: findings from an international prospective study and implications for endoscopic surveillance</b> Imogen Bennett, United Kingdom</p> <p><b>Risk of Colorectal Cancer in Li Fraumeni Syndrome</b> Stephen B. Gruber, United States</p> <p><b>Molecular and clinicopathological profiling of desmoid tumours in familial adenomatous polyposis through RNA sequencing analysis</b> Benjamin Zare, United Kingdom</p>		
17:40 - 18:40	<b>Poster Judging Session B</b>		
18:40 - 18:55	<b>Day 2 Adjourn</b>		
19:30 - 22:00	<table border="0" style="width: 100%;"> <tr> <td style="width: 50%; text-align: center; vertical-align: top;"> <p><i>Violet Oon</i></p> <p><b>Council Dinner</b> (<i>By invite only</i>)</p> </td> <td style="width: 50%; text-align: center; vertical-align: top;"> <p><i>Offsite</i></p> <p><b>Night Safari Tour</b> (<i>Ticketed</i>)</p> </td> </tr> </table>	<p><i>Violet Oon</i></p> <p><b>Council Dinner</b> (<i>By invite only</i>)</p>	<p><i>Offsite</i></p> <p><b>Night Safari Tour</b> (<i>Ticketed</i>)</p>
<p><i>Violet Oon</i></p> <p><b>Council Dinner</b> (<i>By invite only</i>)</p>	<p><i>Offsite</i></p> <p><b>Night Safari Tour</b> (<i>Ticketed</i>)</p>		

Disclaimer: The programme is accurate as of the time of publication (24 February 2026).  
It is subject to change at the discretion of the Organising Committee without prior notice.

6 March, Friday | Main Congress Day 3

07:30 - 08:20	<p style="text-align: center;"><i>Albatross &amp; Birdie</i></p> <p style="text-align: center;"><b>InSiGHT Asia Chapter / ICaN Meeting</b></p> <p style="text-align: center;"><i>Chairs:</i> Joanne Ngeow, Singapore Finlay Macrae, Australia</p>
Time	<p style="text-align: center;"><i>Laguna Ballroom</i></p>
08:30 - 10:30	<p style="text-align: center;"><b>Session 7: Hereditary Gastric Cancer Surveillance and Management</b> <i>Chairs: Bryson Katona, United States   Tan Yu Bin, Singapore</i></p>
08:30 - 08:50	<p style="text-align: center;"><b>Best Practices in Gastric Cancer Care for High Risk Patients</b> Jean Christophe Saurin, France <i>(Gastroenterological Society of Singapore nominated speaker)</i></p>
08:50 - 09:10	<p style="text-align: center;"><b>Hereditary Diffuse Gastric Cancer (HDGC): Pathological Insights and Clinical Implications</b> Chella van der Post, Netherlands</p>
09:10 - 09:50	<p style="text-align: center;"><b>Abstract Presentations 7</b> <i>Chairs: Intan Schrader, Canada   Ladan Goshayeshi, Iran</i></p> <p style="text-align: center;"><b>Clinical Outcomes and Management of Gastric White Mucosal Patches in Patients with Familial Adenomatous Polyposis</b> Carol Burke, United States</p> <p style="text-align: center;"><b>Penetrance of CDH1 Pathogenic Variants: A Multicenter Analysis from the GASTRIC Consortium</b> Ophir Gilad, United States</p> <p style="text-align: center;"><b>Outcomes of gastric surveillance in juvenile polyposis syndrome</b> Victoria Cuthill, United Kingdom</p> <p style="text-align: center;"><b>Longitudinal analysis of fundic gland cysts as predictors of gastric neoplasia in familial adenomatous polyposis</b> Robert Hüneburg, Germany</p>
09:50 - 10:30	<p style="text-align: center;"><b>Panel Discussion</b> Moderator: Andrew Latchford, United Kingdom</p> <p style="text-align: center;">Panellists: Evelien Dekker, Netherlands Carol Burke, United States</p>
10:30 - 11:00	<p style="text-align: center;"><i>Coffee/Tea Break</i></p>
11:00 - 12:40	<p style="text-align: center;"><b>Session 8: Advances in Pancreatic Cancer Research</b> <i>Chairs: Laura Valle, Spain   Chenlei Wen, China</i></p>
11:00 - 11:20	<p style="text-align: center;"><b>Update from PRECEDE Study</b> Diane Simeone, United States <i>(Hepato Pancreato Biliary Association nominated speaker)</i></p>
11:20 - 11:40	<p style="text-align: center;"><b>Early Onset Pancreatic Cancer in China: Contribution of Genetics</b> Shen Baiyong, China</p>
11:40 - 12:40	<p style="text-align: center;"><b>Abstract Presentations 8</b> <i>Chairs: Sharon Plon, United States   Frances Victoria F. Que, Philippines</i></p> <p style="text-align: center;"><b>Prevalence Of Germline Pathogenic Variants Among Pancreatic Cancer Patients in Singapore</b> Nur Diana Binte Ishak, Singapore</p> <p style="text-align: center;"><b>Parent-of-Origin-Aware genomic analysis Enhances the Genetic Risk Assessment in Pancreatic Ductal Adenocarcinoma</b> Kasmitan A Schrader, Canada</p> <p style="text-align: center;"><b>Yield of Germline Genetic Testing among Families with Pancreatic Cancer Clustering</b> Asaf Maoz, United States</p> <p style="text-align: center;"><b>Clinical Characteristics and Outcomes of Pancreatic Cancer Patients with Germline HRD Mutations: A Retrospective Cohort Study</b> Zewen Zhang, Singapore</p> <p style="text-align: center;"><b>Lynch Syndrome - Pancreatic Cancer Risk and Survival: A Nationwide Dutch Cohort Study</b> Monique van Leerdam, Netherlands</p> <p style="text-align: center;">□ <b>Gastrointestinal Cancer Risks in Israeli BRCA1/BRCA2 Mutation Carriers</b> Sari Lieberman, Israel</p>

Disclaimer: The programme is accurate as of the time of publication (24 February 2026).  
It is subject to change at the discretion of the Organising Committee without prior notice.

6 March, Friday | Main Congress Day 3

12:40 - 14:00	Lunch Break	<p><i>Speakers' Ready Room</i></p> <p><b>Council Meeting</b> (InSiGHT Council Members Only)</p>	<p><i>Albatross &amp; Birdie</i></p> <p><b>CMMRD Workshop</b></p> <p><i>Chairs:</i> Uri Tabori, Canada Anirban Das, Canada Lucie Stengs, Canada</p>
14:00 - 15:30	<p><b>Session 9: Advances in Lynch Syndrome Research 1</b> <i>Chairs: Raj Ramesar, South Africa   Mev Dominguez Valentin, Norway</i></p>		
14:00 - 14:20	<p><b>Lynch Syndrome Screening, And Diagnosis and Management: The Chinese Experience</b> Ding Peirong, China</p>		
14:20 - 15:30	<p><b>Abstract Presentations 9</b> <i>Chairs: Raj Ramesar, South Africa   Mev Dominguez Valentin, Norway</i></p> <p><b>A systematic review and meta-analysis on colorectal neoplasia detection in Lynch syndrome</b> Stephanie Poo, United Kingdom</p> <p><b>Incidence And Predictors of Advanced Neoplasia In Patients with Lynch Syndrome on Surveillance Colonoscopy Performed at or after Age 65 years</b> Carol A. Burke, United States</p> <p><b>Adenoma Incidence Trends by Genotype in Lynch Syndrome: A Retrospective Cohort Study of 318 MD Anderson Cancer Center Patients</b> Luigi Ricciardiello, United States</p> <p><b>Impact of surveillance colonoscopy on colorectal cancer incidence and mortality in Lynch syndrome: an observational cohort study</b> Kevin Monahan, United Kingdom</p> <p><b>Non-Neoplastic Precursor Lesions and Somatic Alterations in Lynch Syndrome–Associated Upper Gastrointestinal Cancers</b> Hugo Montemont, Germany</p> <p><b>Potential Impact of AI-assisted Colonoscopy on Non-AI Performance in Lynch Syndrome Surveillance: Evidence of a Skill Effect</b> Tim Marwitz, Germany</p> <p><b>Deep Learning Model Distinguishes Lynch Syndrome from Sporadic MSI-H using Adenoma Histology</b> Srividhya Sainath, Germany</p>		
15:30 - 16:00	Coffee/Tea Break	<p><i>Albatross &amp; Birdie</i></p> <p><b>Get to Know Familial Cancer Session</b></p> <p>Gabriel Capellá, Editors-in-Chief, Familial Cancer Hans Vasen, Editors-in-Chief, Familial Cancer</p>	<p><i>Laguna Ballroom</i></p> <p><b>Meet-the-Expert Session:</b> <b>Reveal more cancer biology with ultra-rich Oxford Nanopore sequencing data</b></p> <p>Manop Pithukpakorn, Thailand Lei Tong, Singapore</p> 
16:00 - 17:40	<p><b>Session 10: Advances in Lynch Syndrome Research 2</b> <i>Chairs: Maria Katapodi, Switzerland   Rakefet Shtoyerman, Israel</i></p>		
16:00 - 16:20	<p><b>Implementing Population Genomics for Hereditary GI Cancer Prevention: Lessons from PROTECT</b> Ranjit Manchanda, United Kingdom</p>		

Disclaimer: The programme is accurate as of the time of publication (24 February 2026).  
It is subject to change at the discretion of the Organising Committee without prior notice.

**6 March, Friday | Main Congress Day 3**

**Abstract Presentations 10**

*Chairs: Maria Katapodi, Switzerland | Rakefet Shtoyerman, Israel*

**Cancer risks in first-degree relatives of individuals with biallelic somatic DNA mismatch repair mutations**  
Romy Walker, Australia

**A multiplex assay of variant effect (MAVE) of MSH6 enables accurate, prospective Lynch Syndrome clinical variant interpretation**  
Anthony Scott, United States

**Reassessing MSH6 variants in ClinVar using MMR-specific ACMG/AMP guidelines and recent literature**  
Hashini Krishnorubaduge, Australia

**Immunogenic frameshift mutations in patients with Lynch syndrome and immune suppression programs supporting colorectal cancer development**  
Aimee L. Lucas, United States

**Prospective Evaluation of a Blood-Based Digital PCR MSI Assay for Early Colorectal Cancer Detection in Lynch Syndrome Carriers: the BioLynch Study**  
Mattia Boeri, Italy

**Blood-based T cell clonal expansion as a biomarker of mismatch repair-deficient tumours in Lynch syndrome**  
Penelope Edwards, United Kingdom

**Mapping the T Cell Receptor Repertoire in Lynch Syndrome-Associated Colorectal Cancer**  
Penelope Edwards, United Kingdom

**Neoantigen-loaded dendritic cell vaccine for cancer prevention in Lynch Syndrome: Early results from a phase Ib clinical trial**

16:20 - 17:40

17:40 - 18:20

**InSiGHT General Meeting**

18:20 - 18:35

**Day 3 Adjourn**

19:00  
Onwards

*Hopscotch (Gardens By The Bay)*

**Congress Dinner**

Disclaimer: The programme is accurate as of the time of publication (24 February 2026).  
It is subject to change at the discretion of the Organising Committee without prior notice.

7 March, Saturday | Main Congress Day 4

08:00 - 08:50	<p>Laguna Ballroom</p> <p><b>EOCRC Hour</b></p> <p><i>Chairs:</i> Daniel Buchanan, Australia Alvin Ng, Singapore</p>	<p>Albatross &amp; Birdie</p> <p><b>Collab Lab @ InSiGHT</b></p> <p><i>Chair:</i> Joanne Ngeow, Singapore</p>
Time	Laguna Ballroom	
09:00 - 09:15	<p><b>Address by Guest of Honour</b> Koh Poh Koon, Senior Minister of State for Health and Manpower, Singapore</p>	
09:15 - 10:45	<p><b>Session 11: Best Oral Communications</b> <i>Chairs: Francesc Balaguer, Spain   Romy Walker, Australia</i></p>	
09:15 - 10:45	<p><b>Best Oral Communications</b> <i>Chairs: Francesc Balaguer, Spain   Romy Walker, Australia</i></p> <p><b>The Newcastle MSI-Plus Assay for Low Cost and Scalable Lynch Syndrome Screening of Cancer Patients and Urine-based Early Detection of Lynch Syndrome Urothelial Cancer</b> Richard Gallon, United Kingdom</p> <p><b>TA-Repeat Expansions Drive WRN Dependency and Guide Inhibitor Therapy in Sporadic and Lynch-Associated MSI Cancers</b> Gabriele Picco, United Kingdom</p> <p><b>Comparison of Postoperative Morbidity Following Total Colectomy with Ileorectal Anastomosis vs Proctocolectomy with Ileal Pouch-anal Anastomosis in Familial Adenomatous Polyposis</b> Jared R Hendren, United States</p> <p><b>Cap-assisted vs. side-viewing duodenoscopy for papilla visualization in familial adenomatous polyposis: a randomized blinded cross-over trial (CAPFAP)</b> Robert Hüneburg, Germany</p> <p><b>Pancreatic Cancer Surveillance Not Recommended for Familial Adenomatous Polyposis: A Fine And Gray Risk Analysis</b> Monique van Leerdam, Netherlands</p> <p><b>Systemic Markers for Predicting and Monitoring Response to Immune Checkpoint Blockade Therapy in Patients with Advanced Microsatellite-unstable Gastrointestinal Cancers: A Pilot Study</b> Aysel Ahadova, Germany</p>	
10:45 - 11:15	Coffee/Tea Break	
11:15 - 12:35	<p><b>Session 12: Frontiers in Lynch Syndrome Research</b> <i>Chairs: Kevin Monahan, United Kingdom   Rebecca Caesar, Singapore</i></p>	
11:15 - 11:35	<p><b>Lynch Syndrome in Singapore: Insights Into The Local Landscape</b> Joanne Ngeow, Singapore</p>	
11:35 - 11:55	<p><b>Cancer Vaccines in Lynch Syndrome - Progress and Promise</b> David Church, United Kingdom <i>(Singapore Society of Oncology nominated speaker)</i></p>	
11:55 - 12:15	<p><b>Cancer Prevention with Aspirin: CaPP3 and Beyond</b> Sir John Burn, United Kingdom</p>	
12:15 - 12:35	<p><b>From Evidence to Practice: Updates on Lynch Syndrome Guidelines</b> Giulia Martina Cavestro, Italy</p>	
12:35 - 12:55	Concluding Remarks	
	Lunch will not be provided. We encourage delegates to make their own dining arrangements.	
13:00 - 16:00	<p>Albatross &amp; Birdie</p> <p><b>Living with Lynch Patient Conference</b> <i>(By Invite Only)</i></p>	

Disclaimer: The programme is accurate as of the time of publication (24 February 2026). It is subject to change at the discretion of the Organising Committee without prior notice.
